

Convenience products

In a world that is getting ever busier, our range of convenience products makes it possible to be creative in the kitchen with less preparation time. The products offer great possibilities for keeping up with the ever-changing demands of the convenience-driven consumer.

Our Culinary Syrups are made from syrup and natural flavourings. Culinary Syrup is an ideal flavouring for cooking, marinades, drinks, sauces for ice cream, ber-

ries, fruit and cheese, and as a topping for desserts.

Fructose (fruit sugar) is a sugar that is found naturally in all fruit, berries and vegetables. It is used like ordinary sugar but in smaller quantities because fructose is often perceived as sweeter than ordinary sugar.

Jelly Sugar Multi is a 100% vegetable-based product and is used for jelly-type desserts, fruit jellies, panna cotta and cake fillings.
